

2024 CAPABILITY STATEMENT

RESULTS MATTER

WHO WE ARE?

ARI Partner with Asset Owners and Operators to ensure continued Safe and Efficient operations

ARI delivers professional services in pressure equipment inspection, weld inspection, and non destructive testing. Our team of experienced professionals are committed to providing high-quality, reliable inspection services to ensure the safety and compliance of our clients' assets. We use state-of-the-art equipment and adhere to industry standards and regulations to deliver accurate, actionable results.

Our mission is to partner with our clients in reducing downtime and improving asset reliability while keeping the highest safety standards. When your operations cannot be halted, our staff will work 24 hours a day, seven days a week to meet your inspection requirements.

We have experience supporting routine in-service inspections, planned shutdown services, and new construction projects.

Carbon Neutral

Honouring the commitment to lower our carbon footprint, ARI holds Organisational Certification from Climate Active. When choosing ARI, you're choosing to support a business that is making a positive difference to the environment. We are proud to be the first TIC service provider in Australia to obtain this certification.

OUR VALUES

Our values have been developed in response to how we work and are instilled throughout our operations at every level.

OUR CAPABILITIES

ADVANCED NON-DESTRUCTIVE TESTING

- Digital Radiography
- Computed Radiography
- Phased Array Testing
- Corrosion Mapping
- Tube Inspection
- Long Range Ultrasonic Inspection
- Corrosion Under Insulation Detection
- Contact Point Corrosion Detection
- Corrosion under Pipe Support Assessment

PRESSURE EQUIPMENT AND TANK INSPECTION

- ASME, AICIP & API Inspections
- Fitness for service assessment
- Pressure vessel, pressure piping and storage tank inspection
- Non-intrusive inspection techniques
- Development and implementation of risk based inspection plans
- Pressure Equipment Design and Verification
- Tank Floor MFL Inspection

HEAT TREATMENT

NON-DESTRUCTIVE TESTING

- Radiography
- Ultrasonic Testing
- Eddy Current Testing
- Magnetic Particle Testing
- Penetrant Testing

WELD INSPECTION AND PROCEDURE DEVELOPMENT

REMOTE VISUAL INSPECTION

HEAVY MACHINERY INSPECTION

- Excavators
- Shovels
- Ball Studs
- ROPS / FOPS

MATERIALS TESTING

- Positive Material Identification
- Hardness Testing
- Defect & Failure Analysis

OUR CLIENTS

THE INDUSTRIES WE SERVE INCLUDE:

- MINING • DEFENCE • POWER GENERATION & RENEWABLES**
• OIL, GAS & CHEMICAL PROCESSING • FABRICATION & MANUFACTURING

WHY CHOOSE ARI

Inspection and NDT are critical components of asset management, helping to avoid costly downtime, extend equipment lifespan, improve efficiency, maintain safety, and meet regulatory requirements.

ARI has a proven track record of providing superior inspection services that comply with the most stringent quality and safety standards.

We believe RESULTS MATTER.

- Climate Active certified carbon neutral organisation
- JAS-ANZ ISO 9001, ISO 14001 & ISO45001 accreditations
- NATA accredited NDT laboratory to ISO17025
- Australian owned
- Highly trained and competent staff
- Innovative and solution focused
- Award winning company
